Annual Survey and Analysis of over 35 Million Monthly Users Reveals Top-Rated Home Remodeling Professionals and Most Popular Home Design

Houzz Inc., the leading platform for home renovation and design, today announced the community’s picks for Best Of Houzz 2016 in North America, a homeowner-to-homeowner guide to the top home builders, architects, interior designers, landscape pros and other residential remodeling professionals on Houzz from cabinetry or roofing pros to painters.

“Anyone building, remodeling or decorating looks to Houzz for the most talented, competent and service-oriented professionals,” said Liza Hausman, vice president of Industry Marketing for Houzz. “We’re delighted in recognizing Asbury Remodeling & Construction as judged by our community to join our community of homeowners and design enthusiasts in recognizing our “Best Of Houzz” professionals around the world.”

The Best Of Houzz is awarded annually in three categories: Design, Customer Service and Photography. Asbury Remodeling & Construction’s work was the most popular among the more than 35 million monthly users on Houzz. Customer Service honors are based on several factors, including the number and quality of recent client reviews. Architecture and interior design photographers whose images were most popular are recognized with the Photography award.

“It’s an honor and privilege to win this award for the third year in a row. Knowing that our customers are supremely satisfied is really validating,” said Daymon Asbury, founder of Asbury Remodeling & Construction. “We love our craft, and I like to believe that comes through not just in an awesome end product, but also in the creative process and positivity we create with our clients throughout the whole building process.”

A “Best Of Houzz 2016” badge appears on winners’ profiles, as a sign of their commitment to excellence. These badges help homeowners identify popular and top-rated home professionals in every metro area on Houzz. Winners will be announced globally throughout the month.
